## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claim 13 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: (1) A frame over which woven wire mesh is to be stretched and secured to form a sieving screen which can be used to screen solids from drilling mud recovered from down-hole when drilling for oil or gas comprising: a rectilinear moulded plastics frame having edge regions by which it is secured in place in a shaker and defining a plurality of rectilinear windows formed by orthogonal array of intersecting ribs also of moulded plastics material, wherein some of the ribs are internally reinforced by rigid metal members, wherein the rectilinear subframe includes members that are internally reinforced by rigid metal having a hollow box cross-section, and wherein C-shaped clips are fitted to the box section edge frame members of the sub frame before the latter is inserted into a mould tool, so that the edge members are stood-off from the inside of the mould tool, to permit GRP material to encapsulate the frame members during the moulding process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3653

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
